News of Day
In Indiana

INDIANAPOLIS, IND., Sept. 2.—With the campaign now within two months of the close there are two very definite observations to be drawn in regard to the standing of the senatorial and gubernatorial candidates.

From the rural communities and, in fact, from Hoosierdom generally outside of Indianapolis, comes the report that Dr. Carlisle B. McCulloch, democratic nominee for governor, is not being well received. These reports are not the concoctions of partisans who are interested primarily in his defeat, but come from sources which can be relied upon as being impartial.

In the first place the years old sentiment against a man from Indianapolis for the governorship is just as strong now as it ever has been. This sentiment no matter whether it is well founded or not, is working against Dr. McCulloch. It will cost him and his party many votes.

Another very important development is the fact that the people of the state are apparently giving each of the men very studious inspection. All they are able to find out about Dr. McCulloch is that he has practiced medicine; that he was a doctor in the army, and that until very recently he had an excellent standing wherever. In contrast to this, so the reasoning seems to go, is the known accomplishments of Warren T. McCray, republican nominee for governor. Every voter in the state knows more or less about the connections of Mr. McCray with the party, and the residents of the cities know Mr. McCray as one of the most successful farmers Indiana has ever produced.

As the campaign wears on Dr. McCulloch seems to be making little progress in presenting himself to the Hoosier public in a light that will bring him votes. It is pointed out by critics of the campaign that he has not advanced any constructive ideas or presented any arguments which would gain him either admiration or followers. Most of his time is devoted to a crude denunciation of the administration of Gov. Goodrich. But Gov. Goodrich is not the man he is running against. Of course, he hoped to make it appear that Mr. McCray and Mr. Goodrich were one and the same. But the reports that come to Indianapolis reveal that the voters think of Mr. McCray and nothing else when they wonder on their selection for the state executive for the next four years.

Republican leaders who are candid in giving their views will admit that when Thomas Taggart of French Lick was nominated by the democrats, or rather drafted, to be the candidate for United States senator, that there was some fear of his success. Their fears were based on the fact that Senator James E. Watson, like most strong characters, has many enemies as well as staunch friends and admirers. For the moment the republicans' leaders were taken off their feet by the trumpet blasts from the democratic headquarters in the Denison Hotel, which heralded the notice that Taggart and his finances were to figure greatly in the campaign and that he would make a vigorous fight.

The advance notices of what Taggart the French Lick boss, was going to do have proved exaggerations of the rank and file. Up to the present time Mr. Taggart has made no speeches. At this late date word comes from the democratic organization that "shortly" Mr. Taggart will start his "vigorous campaign."

HARD COAL PRICE
IS BOOSTED TODAY

HAZLETON, Pa., Sept. 2.—Notice was served on retail coal dealers by the Lehigh Valley Coal company, that prices of anthracite coal had been increased from 70 cents to \$1.25 a ton effective today. Miners charge that the advance is in violation of the warning of the wage commission that the increase given the men does not justify any boost in fuel prices. Eleven of 33 mines in this district were idle today.

PARTY FROCK FOR
THE SCHOOL MISS

One of the last things to be packed in the trunk of the miss going away to school is the party frock. Usually one must do until the Thanksgiving or Christmas holidays and so it must be chosen with care. Here is a very pretty and youthful frock of the loveliest shade of blue-gray taffeta. Silver lace edges the foundation which just shows beneath the scallops of the full skirt. Tiny fluting of taffeta trims the skirt at the hips and the quaint little bodice.

Indiana and a large number of these still have a feeling of resentment for the genital boss from French Lick.

In addition to the fact that Taggart has failed to make a personal campaign it is also evident that the Democratic organization is poorly financed. That is, there does not seem to be sufficient funds to carry on the proper and legitimate organization work in such detail.

As to insure a full party vote at the election. Aside from the fact that the drift nationally is unquestionably toward Republican success there are many beginning to wonder just where Mr. Taggart's supporters hope to build up greater strength for him than he had four years ago. All this reasoning of the political observers is reflected on the betting boards. At this time the odds are 100 to 75 in favor of Senator Watson and the Taggart men are not coming forth with their money even with the short end to cover.

WESTERN INDIANA PETITION COMMISSION
WASHINGTON, Sept. 2.—The Chicago & Western Indiana Railway today applied to the interstate commerce commission for authority to issue \$7,500,000 worth of 15 year, 7 1/2 per cent collateral trust bonds and \$1,000,000 worth of 15-year, 6 per cent collateral notes.

PESKY
BED BUGS

(Pesky Bed Bugs) U. S. D. Q. is a new chemical that puts the exclaiming in the pesky bedbugs, roaches, fleas, ants, and cockroaches—impossible for the pesky devils to exist where U. S. D. Q. is used.

Recommendations of Hotels, Hospitals, Railroad Companies and other public institutions are a guarantee to the public that the safest, quickest and most economical way of getting rid of the pesky insects is by the use of U. S. D. Q. as this chemical kills the eggs as well as the live ones, and will not injure the clothing.

A 30c package makes a full quart enough to kill a million bedbugs, roaches, fleas or cockroaches—and also contains a patent sprout to get the egg nests in the hard-to-get places and save juice. Special Hospital size \$2.50 makes five gallons—contains three sprouts—supplied by drug stores or sent prepaid upon receipt of price, either size, by the Owl Chemical Co., Terre Haute, Ind.
